Direct Energy Marketing Limited
525 - 8 Avenue S.W., Suite 1200
Calgary, Alberta T2P 1G1

Attention: Ms. Nicole Black
Senior Manager, Alberta Regulated Business

**Direct Energy Regulated Services – South
Default Rate Tariff
Gas Charge – February 2012
Application No. 1608088**

1. Direct Energy Regulated Services (DERS), a Business Unit of Direct Energy Marketing Limited, submitted its monthly filing on January 25, 2012, to the Alberta Utilities Commission (the AUC or the Commission) for its proposed gas cost flow-through rate¹ (GCFR) for the month of February 2012 for customers served in the ATCO Gas² South service territory. DERS is the Default Supply Provider for ATCO Gas. The proposed GCFR was \$1.977 per gigajoule (GJ).
2. In Order [U2008-374](#),³ the Commission approved a return margin for DERS. Unlike the GCFR, the return margin is not subject to deferral account treatment through DERS's deferred gas account but is to be recovered with the GCFR through DERS's Rider "F". In Decision [2010-317](#)⁴ the return margin was set at \$0.024/GJ for the period January 1, 2011 to December 31, 2011. In Decision [2011-456](#),⁵ the Commission approved the continuation of the default return margin charge of \$0.024 per gigajoule, on an interim basis, effective January 1, 2012.
3. Directions for determining the GCFR were issued to gas utilities by the Alberta Energy and Utilities Board, predecessor to the AUC, in Decision [2001-75](#),⁶ and more specifically to

¹ This rate for marketable gas, also known as a gas cost recovery rate (GCRR), is referred to as the gas charge under the *Default Gas Supply Regulation*, AR 184/2003, as amended.

² A division of ATCO Gas and Pipelines Ltd.

³ Order U2008-374: Direct Energy Regulated Services, 2009 Interim Default Rate Tariff and Regulated Rate Tariff, Application No. 1595512, Proceeding ID. 134, December 11, 2008.

⁴ Decision 2010-317: Direct Energy Regulated Services, 2009/2010/2011 Default Rate Tariffs and Regulated Rate Tariffs Compliance Filing, Application No. 1605840, Proceeding ID. 468, July 8, 2010.

⁵ Decision 2011-456: Direct Energy Regulated Services 2012 Interim Default Rate Tariff and Regulated Rate Tariff, Application No. 1607740, Proceeding ID No. 1476, November 21, 2011.

⁶ Decision 2001-75: Methodology for Managing Gas Supply Portfolios and Determining Gas Cost Recovery Rates (Methodology) Proceeding and Gas Rate Unbundling (Unbundling) Proceeding, Part A: GCRR Methodology and Gas Rate Unbundling, Application Nos. 2001040 and 2001093, Files 5680-1 and 5680-2, October 30, 2001.

ATCO Gas South in Decision 2002-034⁷ and to DERS in Decision 2003-106.⁸ However, in Decision 2009-238⁹ DERS was given approval to remove energy related charges for credit costs, working capital, bad debts and penalty revenue from the determination of the GCFR, which resulted in a change to the previously approved deferred gas account procedures for DERS. The change was made effective August 1, 2010 by Decision 2010-317. The respective charges and revenue will continue to be included in DERS's default rate tariff on a forecast basis and recovered through Rider "F". The recovery rate was set at \$0.063/GJ for the period January 1, 2011 to December 31, 2011. DERS will be at risk for the difference between forecast amounts approved by the Commission and actual amounts incurred. In Decision 2011-456, the Commission approved the continuation of the charge for certain energy costs of \$0.063 per gigajoule, on an interim basis, effective January 1, 2012.

4. For the month of February 2012, DERS included the following amounts in setting Rider "F" for customers served in the ATCO Gas South service territory:

	\$/GJ
GCFR	1.977
Reasonable return margin	0.024
Forecast energy related charges	0.063
Rider "F"	<u>2.064</u>

5. The AUC has reviewed the filing and accepts that the proposed GCFR was calculated on a monthly flow-through basis in accordance with Section 3(5) of the *Default Gas Supply Regulation*, AR 184/2003, as amended. Consequently, the AUC acknowledges for DERS the GCFR of \$1.977/GJ, which is to be applied to all energy sold to customers served by DERS under low use delivery service, mid use delivery service, high use delivery service and irrigation delivery service in the ATCO Gas South service territory during the month of February 2012.

6. As directed in Decision 2001-75, a 30-day review period was provided to interested parties following the filing of each monthly GCFR in which parties could raise any concerns with the GCFR, price and volume forecasts, and prior period reconciliations. As DERS is the Default Supply Provider for ATCO Gas, the 30-day review period is similarly applicable to the GCFRs requested by DERS.

Derrick Ploof
Director, Rates – Edmonton
On behalf of the Alberta Utilities Commission

⁷ Decision 2002-034: ATCO Gas South, GCFR Methodology and Gas Rate Unbundling – Compliance Filing, Application Nos. 1257245 and 1257515, Files 5626-52 and 5626-53, March 21, 2002.
