Analyst, Government & Regulatory Affairs, Canada West**DIRECT ENERGY REGULATED SERVICES
REGULATED RATE TARIFF
ELECTRIC ENERGY CHARGES – SEPTEMBER 2010
APPLICATION NO. 1606493**

1. Direct Energy Regulated Services (DERS), a Business Unit of Direct Energy Marketing Limited, filed an application (Application) on August 25, 2010, with the Alberta Utilities Commission (AUC) for its energy charges applicable to its Regulated Rate Tariff (RRT) for the month of September 2010.
2. The Application included a letter from the independent advisor¹ (the Advisor). The Advisor stated that he had reviewed the energy charges filed by DERS for the month of September 2010, and submitted that they were calculated in accordance with DERS' 2006-2011 Energy Price Setting Plan (EPSP). DERS also filed signed copies of Certifications of Compliance from the consultation party representatives, the Advisor and DERS stating that the procurement of regulated rate supply for August 2010 was done in accordance with the EPSP.
3. DERS' proposed energy charges for the month of September 2010 are as follows:

Rate Class	cents/kWh
Residential	7.146
Commercial	7.160
Industrial	6.910
Farming (Includes REA)	7.108
Irrigation (Includes REA)	6.919
Oil & Gas	6.824
Lighting	4.827

¹ The Advisor assisted in designing the 2006-2011 energy price setting plan (EPSP) and has an ongoing role respecting the procurement of the energy under the protocols established in the EPSP.

4. AUC staff members have reviewed the Application, including the letter from the Advisor, and the AUC accepts that the above noted energy charges represent rates determined in accordance with the DERS' EPSP approved by the AUC's predecessor, the Alberta Energy and Utilities Board (Board), in Order [U2006-108](#).² The EPSP formed part of a Negotiated Settlement, which the Board considered would result in rates that were just and reasonable.

5. In accordance with section 7(3) of the *Regulated Rate Option Regulation*, AR 262/2005, as amended, the AUC acknowledges that the energy charges as set out above are applicable to DERS' RRT for the month of September 2010.

6. Further, as outlined in sections 7(4) and 7(5) of the *Regulated Rate Option Regulation*, DERS must retain records sufficient to enable the AUC to audit any previous monthly rates set by DERS. Any amount overcharged to customers due to an incorrect rate calculation must be refunded to customers as soon as practicable after the error is discovered.

7. If any affected party objects to the calculation of the energy charges for the month in question, they should notify the AUC and DERS in a timely manner, and include the nature of their objection and the reason(s) why it should be considered.
