

Electronic Notification

August 30, 2007

Corinne Grudecki
Manager, Government & Regulatory Affairs, Western Region
Direct Energy Regulated Services
111 – 5th Ave SW Suite 1000
Calgary AB T2P 3Y6

Dear Ms. Grudecki:

**DIRECT ENERGY REGULATED SERVICES (DERS)
REGULATED RATE OPTION (RRO) ENERGY CHARGE RATES FOR
SEPTEMBER 2007
APPLICATION NO. 1523854**

The Alberta Energy and Utilities Board (EUB) is in receipt of a letter from DERS dated August 27, 2007 in which it requested acknowledgement of energy charges applicable to its RRO service for September 2007. Also on August 27, 2007, DERS submitted a letter from the independent advisor to the Energy Procurement Process, stating that he has reviewed the energy charges filed by DERS and concurred that they were calculated in accordance with the Energy Price Setting Plan. DERS also filed signed copies of the Certification of Compliance for the August 2007 procurement from the consultation party representative and the independent advisor.

DERS indicates it has also included the September rate class adjustment related to the Return Margin shortfall from the September 2006 to November 2006 period approved in Order U2007-52, dated February 21, 2007.

DERS' proposed energy charges are as follows:

Rate Class	cents/kWh
Residential	11.673
Commercial	11.698
Industrial	11.036
Farming (Includes REA)	11.329
Irrigation (Includes REA)	11.313
Oil & Gas	11.127
Lighting	7.903

EUB staff has reviewed the filing, and accepts that the above noted energy charges represent energy charge rates determined in accordance with the directions previously issued to DERS in Order U2006-108, dated April 28, 2006 and the return margin approved in Decision 2006-107, dated November 1, 2006. Consequently, the EUB acknowledges that the energy charges as set out above are applicable to DERS' RRO service for the month of September, 2007.

As directed in the *Regulated Rate Option Regulation*, AR 262/2005, sections 7(4) and 7(5), DERS must retain records sufficient to enable the EUB to audit any previous monthly rates set by DERS and any amount overcharged to customers due to an incorrect rate calculation must be refunded to customers as soon as practicable after the error is discovered.

If any affected party objects to the calculation of the energy charge for the month in question, they should notify the EUB and DERS in a timely basis, of the nature of their objection including the reason why it should be considered.

Yours truly,

A handwritten signature in cursive script that reads "Laurie Bayda".
